1959 Iris Introductions

CAPTAIN GALLANT — THE RED IRIS that IS red through-out. A complete self in rich deep red, with no purple influence at all, there are no haft markings or any other color to detract, even the beard blends perfectly. The very broad standards are ruffled and firmly held; the ruffled semi-flaring falls are wide at the haft and rather pointed at the bottom. Gorgeous, huge blooms of extra heavy substance that do not burn regardless of heat or hot winds. Perfect branching on thirty-seven and one half inch stalks. Very long blooming season and a fast increaser. H. C. 1958. One for \$30.00 — Three for \$75.00

TERRY LEE — The perfection of the form of this iris always attracts attention. This very large iris has wide segments, closed standards, slightly flaring falls in a new shade — clean violet-rose, pure and gleaming; tangerine-red beard tipped white. Well branched, blooms medium season to late. 36 in. 25.00

HONEY HUE — Velvety, in fact, the most velveted falls I've seen anywhere. The very, very ruffled, pure butterscotch standards are closely held and edged and laced in amber. The very velvety, flaring falls of butterscotch are extra wide and deeply ruffled and frilled; an amber-brown line encircles the falls. Heavy clear yellow beard, medium season and 36 inches tall 20.00

ORCHID DOLL — Large, rounded, very ruffled form in clear, glistening orchid standards, very heavily ruffled and as crisp as lettuce. Falls are a trifle darker with a white area around the reddest beard imaginable. Early, very fast increaser. 15.00

CLASSY LASS — The standards are so ruffled they are inclined to stand straight up and the falls flare sharply displaying their ruffles to perfection. Since this had its first bloom the constant remark has been, "That is the pinkest iris I have ever seen." Altho this is a flamingo pink the falls have an overlay of true medium pink; hence the remarks. Tangerine beard, heavy substance and increases fast. 38 inches tall. 10.00

HOT CARGO — This medium large, rounded red iris has a scarlet overlay on the falls giving it a very red effect. Conceivable the scarlet iris so many hybridizers have longed for, in vain, could be bred from this half-brother to "Captain Gallant". 35 inches tall. 10.00

1958 IRIS INTRODUCTIONS

HAZEL E. — Large, pure clean baby ribbon pink throughout with a glistening finish. The very wide, ruffled standards are perfectly held and the falls flare gracefully. The beard is tangerine-pink, pink tipped. Very weather resistant and long lasting bloom. 36 inches tall. 7.50

ORCHID ISLE — A complete self of true orchid in a very ruffled, lacy flower with a heavy yellow beard. The wide lacy edges of both standards and falls open perfectly and do not deform the flower at any time. Extra long blooming season. 34 inches tall. 10.00

1957 IRIS INTRODUCTIONS

DREAM MAGIC — Bright rose-pink self with extra wide segments in a $6\frac{1}{2} \times 6$ inch flower. The standards are frilled and perfectly held. The falls flare widely and are so very ruffled and frilled that they swirl showing the underside of the wide, lacy edged flounce which is a light cocoa shade, adding a distinctive touch that is most appealing. There is no other iris on the market in this clear, bright rose-pink shade. Fragrant, 42 inches, well branched 25.00

PARTY TIME — The very wide, frilled standards of glistening pale amber have an inch of lace that does not pinch but opens perfectly, the huge style arms are very frilly. An elusive touch of 'Mary Randall' pink gives an effect of art shadings over the entire standards. The wide, white falls have a wide ruffle of bright yellow entirely around it, deepening at the haft to brown about an inch wide. The lacy lower portion of the falls lay in rhythmical fluting. Medium large, perfect in form — a finished work of art! 32 inches, well branched..... 10.00

PRECIOUS CARGO — An absolutely huge pastel in a gleaming, copper pink self. As this is a Mary Randall seedling, it is in that shade of pink, though in pastel. Its huge standards are closely held and the falls flare well out to show the light ruffling to perfection. In spite of its huge size and leather-like substance this gives the daintiest effect imaginable. Rather late in its blooming habits. 38 inches tall. 5.00

TERMS: Cash with order, check, draft or money order. 50% of sale will hold order until digging time when it can be shipped C.O.D. if you desire.

POSTAGE is paid on all orders. No orders under \$5.00 please; this \$5.00 must be either Iris or Hemerocallis—NOT to be both. We make no substitutions of varieties, unless second choice is given, and if stock is sold out refund will be made.

WE GUARANTEE good, healthy stock, true to name, and that it reaches you in good condition, but we cannot guarantee the growth in your garden. Any error on our part will be carefully corrected, for our success depends on your being satisfied.
